Codeup
Certification of Completion
May 2022 - Oct 2022
A fully-immersive, project-based, and intensive 20-week Full-Stack Java Career Accelerator that provides students with 670 hours of expert instruction in software development.

University of Texas San Antonio
Bachelor of Science
Aug 2015 - Aug 2019
Completed four years of undergrad focusing on athletic medicine in Kinesiology.

Software Developer and former educator specializing in team building, enhancing social experiences, and optimizing performance. Increase project productivity with proficient holistic full-stack skills and technologies. Versatile in crafting websites, applications, and creative platforms that exceed functionality and performance.

Development Projects

i-Plant
A dynamic E-commerce website focused on plants that provides a unique feature, Plant-ID, which lets users upload any plant image and outputs informative results relating to the plant. Utilized Java, Spring, MySQL, Jalopy framework, and multiple API's.

Map & Weather App
Combined the functionality of Mapbox and OpenWeatherApp API to create a dynamic app capable of displaying a 5-Day forecast with detailed weather information in any given global location using Vanilla Javascript. Solo project.

Popcorn Cinema
Developed a movie site where users can enjoy browsing movies in any category by clicking on modals using HTTP request methods such as POST, PUT, and DELETE from a Movies API. Paired project.

NFL Memory Game
Developed a fun card game that helps improve concentration and memory. Utilized React components, props, and hooks to enforce game rules. CSS was used to create more animated card flipping sequences.

Professional Experience

Jubilee Academies - San Antonio, TX
Sports Performance Coach / Aug 2019 - May 2022
- Created, implemented, and directed resistance training programs to optimize athletes physical performance in sports, ranging from ages 10-18.
